

There Is Never A Good Time To Change:

We convince ourselves that life will be better and we'll be able to make some changes when a number of obstacles get taken care of. Things will be better when you get married, have a baby, then another. Then you are frustrated that the children aren't old enough and you'll be more content when they are...then you can change things. After that, you're frustrated that you now have teenagers to deal with. Things will certainly get better once they outgrow this crazy stage...then you'll make a change in your life.

You convince yourself that things will improve, once your spouse, gets their life together, when you get a nicer car, when your able to go on a nice vacation or when you retire.

The truth is, there is no time to make changes in your life, unless you first decide that something needs to be changed and then simply DO IT.

It's far better to decide that things may or may not be exactly as you had thought they would be at this age...when you were just 17...We create our own happiness and our own mess, we decide to succeed, or to fail and no one except...WE, can be held to blame for where we currently are, or are not...

Take the steps to change your life style and stop using,

I can't change things;

Until your car is paid off  
Until you get a new car or home  
Until your kids leave home  
Until you go back to school  
Until you lose 10 pounds  
Until you gain 10 pounds  
Until you get married  
Until you get divorced  
Until you have kids  
Until you retire  
Until summer  
Until spring  
Until winter  
Until fall

Or Until you die...(opps...now it's too late)

Believe me, I've heard enough excuses to fill ten books, as to why = things aren't exactly as we would want them to be...but, it is always = 'someone else's fault', as to why things are this way...

Step back and decide to make a concerted effort to succeed in whatever = path you decide to take, but take the trip and don't wait for the next = 'Good Time' to make a change...it will never arrive my friend, unless = you make it happen...

Commodities trading and the lessons learned will aid you much in the = years to come...trading can be done at home, without costly equipment = and expensive real-time information...but it is up to you to take the = time, to make a change...do nothing and nothing will happen, of that I = am absolutely sure and that is the only guarantee that you will ever = receive in life.

We get from life, exactly commensurate to that which we put into = it...nothing more and nothing less, but for most of us we are our own = worst enemy, when it comes to success and failure. No one is going to = come out of the woodwork and hand you success and a life worth living. = What you want and what you receive, will depend on what you do, with = what God gave you...success will come to those who work for it and as we = all know, there is no such thing as a 'free lunch'...don't look for it = and give up expecting to receive that money from some long lost = uncle...this is real life, not a movie.

Take care and enjoy life...
